

Happy Holidays Lady Putterers

It was really great to see everyone at the welcome back party and looking forward to another successful season here at Shadow Hills Golf Club.

To start off the new season I have agreed to do a monthly golf tip for the Lady Putterers.

Tip of the month is Pace.

Pace is the most important element of putting. You need to have the proper pace whether you're on fast or slow greens, long or short putts.

Pace is a matter of practice and feeling the speed.

Practice drill: Step off 3 ft, 10 ft and 20ft.

Start with 5 balls from 3 ft and try to make all 5 before moving back to 10 ft.

On the 10ft putts try to get all 5 within a two foot circle. Once you get all five within the circle then move to the 20 foot putt.

When putting 20- 60 foot putts try to get them within a 3 foot circle.

Once you can get the ball within that circle from the longer distance, you will develop better Pace.

Wishing all of you a Merry Christmas and a Happy New Year!!
